

Prizes Schedule for 26th October 2023 Tournament
<https://parleyyang.github.io/CUPOKS/index.html>

Parley R Yang, President of CUPOKS 2023/4

Version as of 15th October 2023

1 General Affairs

The main prize is sourced from the collected pot, denoted x . Throughout, we assume $x \geq 600$ and that there are more than 30 players for the schedule to be valid. The idea is to have around $\frac{5x}{6}$ of the pot to be attributed to the top 10 players, with the top 7-9 players be given the free registration to next tournament which worths £20 each. Let $y := x - 60$ to indicate the attributable pot for top 6 players.

The leftovers from the pot goes to the organisers of the game as well as transportation and maintenance due for the chips and other equipments.

On top of the collected pot, an extra boost of £300 from our sponsor Jane Street shall be made available to top performers. £200 of which goes to the top 2 players while £100 goes to the top Female and Non-Binary players, which are detailed below.

2 Main Prize Schedule

Note: the actual prize on the day may involve rounding up / down to the nearest £10. As all prizes are attributable to the Final Table participants, in case where all Final Two Table participants agree, we may scale down for the 11th player to be awarded.

Position	Pot Prize	Extra Prize from Jane Street
1	$\frac{y}{4}$	£150
2	$\frac{y}{6}$	£50
3	$\frac{y}{6}$	
4	$\frac{y}{12}$	
5	$\frac{y}{12}$	
6	$\frac{y}{12}$	
7	Free reg to next tournament	
8	Free reg to next tournament	
9	Free reg to next tournament	

3 Female and Non-Binary Prizes Schedule

This prize is available if there are more than 3 players of female or Non-Binary genders participates the game (either through early registration or walk-in), and that at least one player achieves the final table.

- In case there is exactly one player of female or Non-Binary genders at the final table, £100 shall be awarded to her / them.
- In case there are more than one player of female or Non-Binary genders at the final table of the main event, they shall play a separate game, depending on the timing when final table finishes. The game shall involve all such players at the final table, with the winner getting £100. The game shall start with 50 big blinds each (e.g. level 12 with 50,000 chips) and the blind level doubles every 10 minutes. This game shall be held either right after the main final table finishes, or at an alternative agreed time amongst all participants, should it not be feasible due to the late finishes of the main final table.

4 Numerical illustrations
